The 30-minute online Clifton StrengthsFinder assessment measures a person's natural talents within 34 themes. By revealing the ways in which each individual most naturally thinks, feels, and behaves, the assessment can help people identify and build on the areas in which they have the most potential to grow and succeed.

With education and training, anyone can possess basic knowledge or go through the fundamental steps to complete a task. But the very best have a significant edge: they build and apply strengths by doing what they naturally do best every day.

TALENT **X** **INVESTMENT** = **STRENGTH**

(a natural way of thinking, feeling or behaving) (time spent practicing, developing skills, and building a knowledge base) (the ability to consistently provide near perfect performance)

When used as the foundation of a larger strengths-based development platform, the Clifton StrengthsFinder guides individuals towards the self-awareness they need to achieve greater **performance and outcomes.**
